Since 1985, Baltimore Clayworks has developed sensitively conceived and collaboratively designed programs with artists and community organizations. Community partners include schools, community centers, churches, and social service agencies, along with outreach and recovery programs throughout Baltimore City and the surrounding regions.

These programs bring art experiences of authenticity, excellence, and meaning into the lives of children, adults and seniors, who do not usually have such access. Participants learn to overcome challenges through creativity and encouragement. They are energized by and proud of their accomplishments. For many, these collaborations lead to trying new activities in ceramics, visual arts and beyond.

Baltimore Clayworks' vision is a welcoming and creative community where all people can access and experience joy through clay.

The mission of Baltimore Clayworks is to develop, sustain, and promote an artist-centered community that provides outstanding educational, artistic, and collaborative programs in the ceramic arts. Its core values are artist-centeredness, excellence, inclusivity, integrity, and joy.
